And if you're not ready to commit to a contract initially, then MFS also provides the PAYG option, which allows you to manage your fleet maintenance requirements on a simple and easy 'pay as you go' basis.

Unlike any other service provider, MFS operates wholly-owned regional and local branches so that we can support you wherever you are, at any time. One call is all it takes to get through to our 24/7/365 customer support team who will manage your maintenance and repair requirements from start to finish.
